Great Basin Incident Commander Conference Call Agenda 2015	
	877-779-1564/564507#
Date: 9/11	Note taker: G. Dingman
GB MAC/GACC Coordinator: Agenda/Incident Commander Discussion Points: <u>Summarize the following in 4 min or less:</u> <ul style="list-style-type: none"> • Fire Size / % contained / # of people / Cost to date • Significant changes since the last 209 • BRIEF fire synopsis /Critical Incident Information (use Directional vs DIVS's) • Political Issues / Community Meetings • Closures / Evacuations / Public Safety Issues • Major Safety Concerns / Injuries / Accidents • Critical Resource Needs • Resources Available to Reassign/Share/Demob 	
Predictive Services:	...Much Above Normal Warmth/Dryness Next Few Days... ...Isolated Lightning NW NV and Sierra Front Sunday High pressure will build across the region through the end of this week ushering in a significant warming and drying trend. Conditions will continuously warm and dry through the end of the week, with temperatures 10 to 15 degrees above normal by Thursday, with the warming continuing through Saturday. The warming trend will be most pronounced across western and central Nevada where record high temperatures are forecast Thursday through Saturday. Afternoon RH will drop into the single digits across NV and 10-15% into ID/UT/WY, with overnight RH recovery increasingly poor as drier air moves into the region.
GBCC Update:	9 fires / 250 acres / <ul style="list-style-type: none"> • GBCC will be staging some resources across the Basin in anticipation for the hot, dry weekend weather. •
1 Fire: Wheeler IC: James Turner / Whatcott / Riley	754 acres / 50% / <ul style="list-style-type: none"> • Fire will be 90% by the end of the day • Crews are mopping up and securing the edge • Augusta / Snake River IHC available for • Transition to T4 IC on Saturday will turn the fire back to the local unit
2 Fire: Teepee Springs IC: Chris Ourada transition to Chris Wilcox	98082 / 77% of objectives / 754 people / 18.4M <ul style="list-style-type: none"> • South end – small amount of rehab to be completed. Will leave several resources on this DIVS to ensure capability if any hotspots remain • DIVS D; no one on that side of the fire, very steep and inaccessible • West side North of the River; 100 % mop up • North and East side; direct and indirect line has been completed, mop up continues and working to tie into the Wilderness • East side south of the River; active and still some heat. This is where

Appendix 7

	<p>there was acreage gain. Crews are working on direct and indirect line on that flank.</p> <ul style="list-style-type: none"> • Structure group working in the Old Mining Site doing structure assessment • Critical Needs: Need to get IR flight • Demobing resources as they time out. • Planning meeting; determine if River Rd can be opened to general public. No other meetings planned. • Wilcox T2 to shadow today and take over the fire tomorrow 0600. T1 IMT will travel on Saturday. • Close out 1400 Saturday
3 Fire: Eleven Mile IC: Riley Rose	<p>10400 / 55% / 298 / 8 M</p> <ul style="list-style-type: none"> • Transition to local T3 IMT • Continue to work on NE side of the fire where there is still some heat. • Continue to mop up and rehab the rest of the fireline • No critical needs/transitioning to local Frequencies
4 Fire: Oak Grove IC: Eric	<p>700 acres / 10% / 132 / 1 M</p> <ul style="list-style-type: none"> • Some growth yesterday and is partially burning in the watershed • No meetings planned • Closure for the area is in effect • No injuries • No resources
5 Rapid Fire: IC: Clay	<p>9653 / 50% / 56 / 7.4</p> <ul style="list-style-type: none"> • Continue to patrol South side • West side is retrieval of hose and pumps • NE still somewhat active. Will be • TFR did change slightly • Resources will time out • T4 transitions
